datAshur® personal

Easy to use and affordable USB Flash Drive

Designed for everyday use, the iStorage datAshur Personal secure flash drive, employing PIN access with hardware encryption.

The datAshur Personal® provides peace of mind over the security of sensitive data at an affordable price. Using PIN access with military grade CBC-AES 256-bit hardware encryption, the datAshur Personal offers complete data security and guarantees 100% protection.

The datAshur Personal secures data you don't want others to see, from family photos to files of a more sensitive nature, so you will never have to worry about your personal or company files falling into the wrong hands!

The datAshur Personal incorporates a rechargeable battery allowing the user to enter a 7-15 digit PIN onto the on-board keypad before connecting the drive to a USB port. All data transferred to datAshur Personal is encrypted in real-time with the built in hardware encryption engine and is protected from unauthorised access even if the datAshur Personal is lost or stolen.

The datAshur Personal automatically locks when unplugged from the host computer or power to the USB port is turned off, and operates straight out of the box, does not require any software or drivers to be installed.

CITRIX READY

Compatible with:

You will not find a more secure flash drive that is so easy to use at such an affordable price!

Main Features

- ☑ FIPS PUB 197 Validated Encryption Algorithm
- ☑ Real-time military grade CBC-AES 256-bit hardware encryption
- ☑ No software or drivers required
- ☑ 100% hardware encryption
- ☑ OS & Platform Independent - compatible with Windows, Mac, Linux, Chrome, Android, Thin Clients & Embedded Systems
- ☑ Brute Force Hack Defence Mechanism
- ☑ Crypto-parameters protected with SHA-256 hashing
- ☑ Bootable drive
- ☑ Read Only (Write Protected)

- ☑ Supports Admin PIN and User independent PINs
- ☑ Drive reset destroys data and recovers use of drive
- ☑ Wear Resistant Key Pad
- ☑ Auto Lock Feature
- ☑ Immune to BadUSB
- ☑ Customising service available
- ☑ Capacities of 8, 16 & 32GB
- ☑ 3 Year Warranty

Why choose the datAshur Personal®?

Did you know that millions of external data storage devices are lost or stolen every year and this figure is constantly on the rise.

Have you ever considered the impact of losing your non-encrypted USB flash drive? Your data would be at the mercy of anyone who stumbles across it. New and enhanced legislation is a global issue that demands strong protection of specific data categories. Nowadays, most international data protection acts demand adequate protection of personally identifiable information (PII).

Government bodies the world over are very clear in advising businesses and institutional organisations to encrypt all data that workers access. Data which is encrypted and is lost or stolen is not vulnerable to compromise.

Loss of confidential data can have a devastating effect on both businesses and consumers. It could lead to a hefty fine, the downfall of a business, embarrassment, job losses and adverse media attention.
