Top Gadgets and Accessories for Hardware and Data Security

iStorage datAshur Pro USB 3.0 secure flash drive

Should the need of something secure though smaller be essential, iStorage's datAshur Pro USB 3.0 secure flash drive is the choice. Focused for business and government users, the flash drive includes FIPS 140-2 level 3, CESG CPA Foundation Grade together with NLNCSA level 2 accreditation together with 256-bit hardware encryption, a read only protect mode. A brute force hack detection tool is also included which tends to aid in keeping the data secure in case of theft or loss. The range of datAshur Pro is available from £69 to £129 in 8, 16, 32 and 64 GB models.
