iStorage datAshur Pro USB 3.0 secure flash drive

If you need something secure but smaller, iStorage's datAshur Pro USB 3.0 secure flash drive could be an option. The flash drive, aimed at business and government users, includes FIPS 140-2 Level 3, CESSG CPA Foundation Grade and NLANSA Level 2 accreditation, as well as 256-bit hardware encryption, a read-only protect mode and brute force hack detection tools -- which helps to keep data secure in the event of loss or theft.

The datAshur Pro range is available from £69 (\$107) to £129 (\$200) in 8GB, 16GB, 32GB and 64GB models.
